ANTI-ROLLING GYRO
JAPAN

AC or DC Series

The Original Gyro Stabiliser

No Maintenance | Better Performance | Air-Cooled

ARG 65T

Suitable for vessels up to 10T

DESCRIPTION

Originally designed by Mitsubishi for Space Station stabilisation, the ARG is the original Gyroscopic Stabiliser for Luxury Boats. With patened designs relating the the gyros simplicity, it's the only Gyro on the market that is maintenance free. MYSC has been installing these into Luxury Motor Yachts in New Zealand for 14 years. All units have never required maintenance. No sea water cooling, no high pressure lines or hydraulic rams, you can see why this gyro is the first choice for Game Fishermen and Luxury Boat Owners.

KEY FEATURES

- Natural Precession Travel of 180 Degrees - Meaning more stability in larger wave heights compared to ram driven gyros
- Air-Cooled, no expensive annual maintenance required on sea-water cooling systems
- No Hydraulics means no expensive ram replace-ments required
- Simple Installation contributes to the best per-forming and lowest cost gyro on the market
- Anti-Rolling Stability provided during spool-up

SPECIFICATION DATA

Anti-Rolling Torque:	6,500Nm
Unit Weight	234 KG
Rated RPM	4,200 RPM
Spool Up Time	30 Minutes
Spool Up 12V DC Power Req:	1000W
Operating 12V DC Power Req:	700W
Spool Up AC Power	1,800W
Operating AC Power Req:	1,400W
Unit Height	525mm
Unit Width	741mm
Unit Depth	536mm
